About the 2020 Department of Defense Artificial Intelligence Symposium and Exposition
The inaugural Department of Defense Symposium and Exposition, hosted by the Joint Artificial Intelligence Center, brings together all Service, Agency and OSD organizations that are driving the development and deployment of AI and machine learning with innovators and thought leaders from industry, academia, and non-profit research institutions. The two days of presentations and discussions will focus on how the DoD AI ecosystem is "Making AI Real" from operational, R&D, and programmatic viewpoints. Additionally, there will be a virtual "exposition" for industry vendors, academics, and non-profit organizations to highlight capabilities to the attendees.
